

Winter

Winter is one of four seasons of year. Calculated astronomically, it begins on the solstice and ends on the equinox.

It is the season with the shortest days and the lowest average temperatures.

In winter the weather is cold there is a lot of snow in Slovakia especially in the mountains.

The lowest average temperature of the season is in January..

Some animals sleep. It is possible to ice-skate ,ski, make a snowman etc.

Spring

Spring is one of the four temperate season. The chirp of birds, first sun rays , heads of snowdrops and little snow, these all are signals that spring is coming. Spring returns back life to gardens, parks, vineyards and fields. Spring is the most suitable season for gardening. It is getting warmer and grass starts to grow everywhere.

Snowdrop

Snowdrop

It is first spring flower. In present it is protected .
It grows in meadows, ditches and in forests. Often it grows in parks and gardens. People started to cultivate it in 16th century. Snowdrop is modest plant fifteen toll twenty centimetres high. Snowdrop is poisonous and the most poisonous part is the bulb.
